The symbols that may be found in this document are defined as follows.

Symbol	Description
 <b>DANGER</b>	Indicates a hazard with a high level of risk which, if not avoided, could result in death or serious injury.
 <b>WARNING</b>	Indicates a hazard with a medium level or low level of risk which, if not avoided, could result in minor or moderate injury, robot arm damage.
 <b>NOTICE</b>	Indicates a potentially hazardous situation which, if not avoided, could result in robot arm damage, data loss, or unanticipated result.
 <b>NOTE</b>	Provides additional information to emphasize or supplement important points in the main text.

## Content

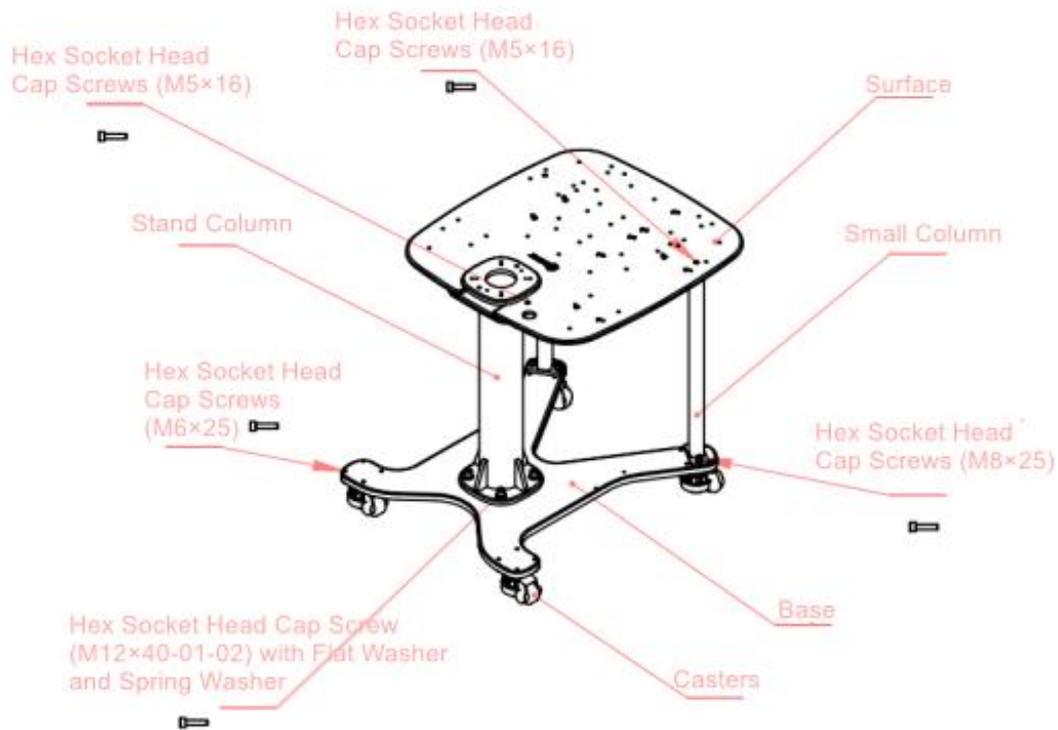

<b>Preface .....</b>	<b>ii</b>
<b>1. Display of Training Platform .....</b>	<b>1</b>
<b>2. Installation Steps .....</b>	<b>2</b>

## 1. Display of Training Platform

The overall image of training platform is shown as below:

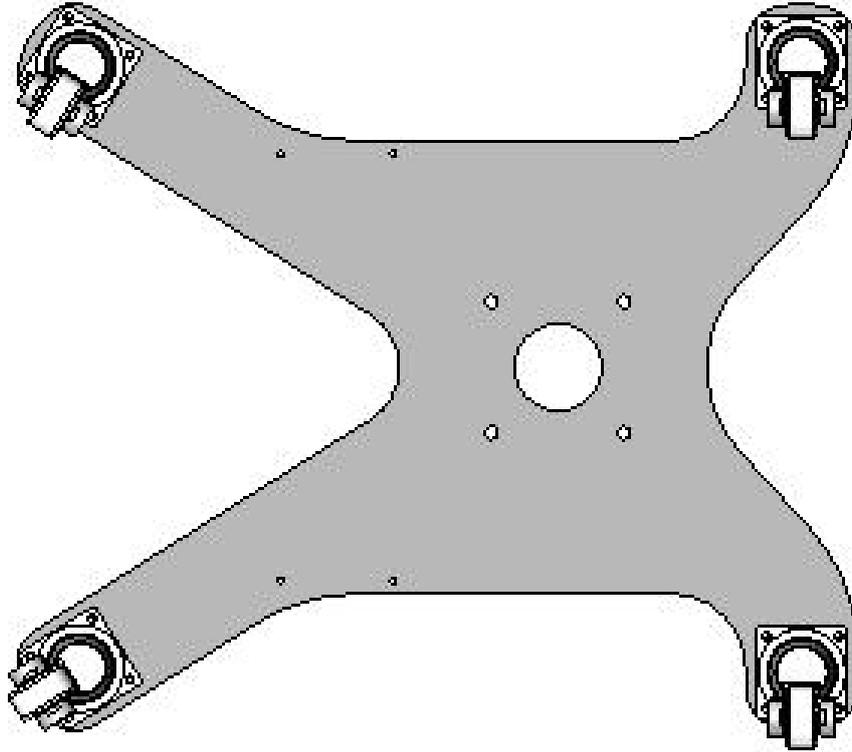

## 2. Installation Steps

- (1) Place the base plate flat on cardboard or other soft material (to avoid scratching the base plate). Securely attach the four casters to the four corners of the base plate using M6×20 screws.

**i NOTE**

The side with the curve is the front-facing side.

- (2) After assembly, flip the entire base plate upside down and secure the column to the base plate using M12x40 screws.

- (3) Use M8x20 screws to secure the two small columns to the base plate. Note that the screws for the small columns should not be fully tightened at this stage; they should only be tightened after completing the base plate assembly.

- (4) Use M5x12 screws to attach the panel to the column.
